

Damon course

- It's all in the system

DAMON[®]SYSTEM
More than straight teeth

Dear orthodontist

During this full day, Dr. Perera will guide beginners and experienced Damon users through selected cases from all the different malocclusions.

He will also cover topics as extraction cases, finishing, aux slot opportunities, agnesis cases and many more.

Attending this course will give you a broader understanding of the benefits in the Damon system, and also equip you with more tools and confident to treat your daily patients.
